12th April 2018

Dear Family and Friends of Sanders School

I am delighted and honoured to be appointed to lead Sanders School as its Headteacher from the start of the new school year.

I am joining Sanders having been at two outstanding schools. From my experience of both I know that a successful and happy school depends on all of us working together. I am looking forward to working with the whole community as we strive for greater success for all our students. I have strong educational values and principles based around high expectations, hard work and respect.

It is the responsibility of the students to meet our high expectations of behaviour and uniform, respecting themselves, each other and the school environment and showing an excellent attitude to learning. It is the responsibility of the school and staff to provide high quality learning experiences, effective feedback to help students to know where they are in their learning and how to improve and to ensure that support is in place to overcome any barriers to learning. Parents/carers are responsible for supporting their child in their studies, whilst instilling and embedding good study habits.

I have lived in Havering for over 15 years. My wife (a Head of Department for years 4-18) and I have two children who are/will both attend schools in Havering, an area we have great attachment to. In tune with the Sanders ethos, I believe strongly in the importance of a sense of community and am excited to be joining the Sanders family.

Sanders is a school with huge potential. I am determined and driven to secure an outstanding future for the staff and students and look forward to working with you.

Yours sincerely,  
Stuart Brooks
